Products

Compute

Infrastructure as a Service (IaaS) provided by INTICloud CMP to create infrastructure according to customers' needs in the form of a Virtual Machine (VM).

Volumes

This is a network-based SSD/HDD storage that attached to a VM as additional storage device. All data is stored on hardware separated from VM and replicated multiple times across different servers.

Object Storage

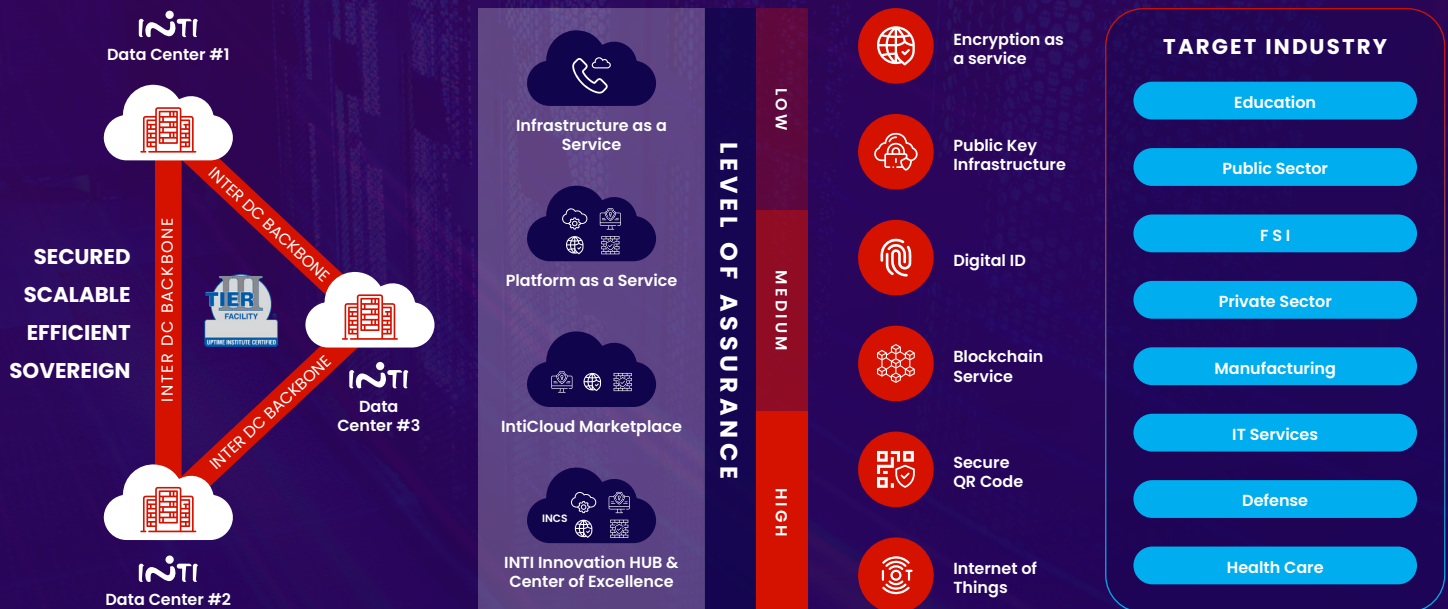

Simple Storage Service (S3) with scalable data storage and capable security. Allows to perform backup, recovery, archive data and do file management.

Kubernetes as a Service

Service that orchestrates a container-based control plane, provisions and deploys clusters, and automates tasks so customer can launch a Kubernetes cluster within minutes.
